# five simple ways to go a little green

Want to do your part to protect the planet? Just remember: No one can do everything. But everyone can do **something**. And Circuit City can help.

## 1recycle

Recycle cell phones and rechargeable batteries at your local [Circuit City store](#).

[Find a local electronics recycler](#)

## 2trade in

Want to upgrade to a new computer or iPod? Trade in your old one for a Circuit City gift card.

[See how much your stuff is worth](#)

## 3unplug

Many electronics use electricity even when turned off. Use a [surge protector](#) and flip the switch when not in use.

[Shop for surge protectors](#)

## 4recharge

Switch to the new, efficient rechargeable batteries from brands like [Sanyo Eneloop](#), [Duracell](#) and [Energizer](#).

[Shop for rechargeable batteries](#)

## 5buy smart

ENERGY STAR electronics meet strict energy efficiency guidelines set by the federal government.

## no-hassle TV recycling

Our delivery professionals will **remove and recycle your old TV** with the purchase and delivery of a new flat-panel TV 37" or larger.

- Why recycle? CRT TVs contain lead and other toxic substances
- Offer applies to Basic and Premium delivery levels
- Our recycling partners ensure that televisions are recycled and/or disposed of in an environmentally friendly way.\*

[Learn more about delivery](#)

\*The extent to which parts of any television can be recycled will vary.

## a few more ways to shop green

## did you know...

- By 2010, appliances in standby mode will be responsible for **20% of an average household utility bill**.
- A CFL bulb typically uses **65%-75% less energy** than a standard incandescent bulb to provide the same amount of light. Plus, it lasts up to 10 times longer.
- LCD televisions and monitors draw less power than CRT or plasma screens. You can save roughly **275 kilowatt-hours of energy and \$25 per year** by choosing a 32" LCD TV over a 32" plasma.
- Circuit City recycles over **10,000 tons** of cardboard boxes every year at our warehouses and stores.
- Find out what our electronics manufacturers are doing to reduce waste and make their products greener. [Learn more](#)
